Re: Change in Regulations, Library Services and Technology Act (LSTA)

Dear Colleagues:

There have been changes to the regulations governing LSTA, effective with the FY2015 allotment; for North Carolina's program the changes take effect July 1, 2015. The new regulations are referred to as the Supercircular (2 CFR 200), which **requires** recipients of federal funds to allow sub-grantees to take indirect costs out of federal grant awards.

In the past, the State Library of North Carolina has not allowed this, so we immediately updated all 2015-2016 LSTA grant applications and supporting documents to reflect the change. We wanted you to know as soon as possible to prevent applicants from outlining a project and preparing a budget, then having to go back and re-write portions of the application. Please review the updated documents at the link below; **all applicants** should use the revised documents.
